

**Occupational Safety and Health Administration (OSHA)** requires that any staff member who uses an N95 respirator be medically cleared via Respirator Medical Clearance (RMC) and fit-tested each year. Those identified must undergo fit testing before first use and annually as part of the **MGB Respiratory Protection Program (RPP)** to meet OSHA compliance requirements. This program is designed for the safety and well-being of our workforce.

Orientation	GME Orientation Dates	Fit Test Clinic Timeframe	Fit Test Clinic Location
Interns	06/17/2025	11am-5pm	Tower Mezzanine
Residents, Clinical Fellows	07/01/2025	11am-5pm	Tower Mezzanine
