Mass General Brigham
Brigham and Women's Faulkner Hospital

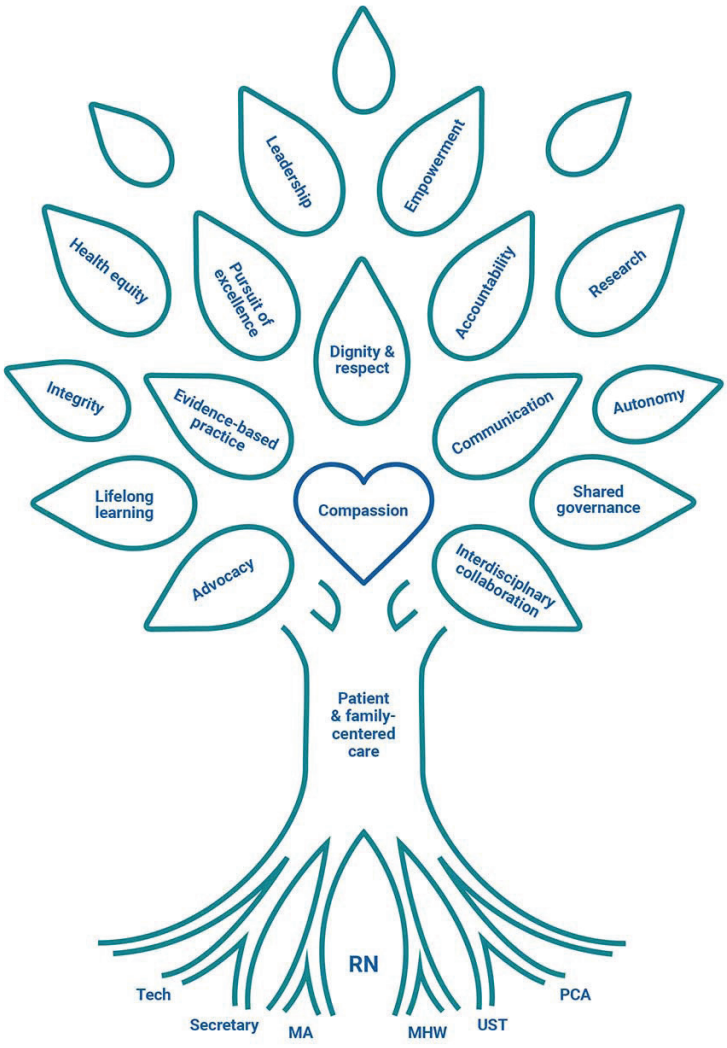

Brigham and Women's Faulkner Hospital Professional Practice Model

At Brigham and Women's Faulkner Hospital, we believe high-quality patient care is only possible through teamwork.

Our nurses collaborate with a strong interdisciplinary team to support patients and families and incorporate principles of evidence-based practice, accountability, communication, shared governance, advocacy, lifelong learning, integrity and pursuit of excellence into the practice of nursing.

These elements are illustrated on our Professional Practice Model:

- The roots symbolize the many roles that collaborate with nurses and the teamwork needed to deliver high-quality patient care.
- The trunk depicts nurses' core focus on delivering patient- and family-centered care with compassion.
- The leaves illustrate the principles and components of nursing practice that flourish because of our commitment to our patients and each other.

Teamwork makes the dream work.
