

Mass General Brigham Background Check Requirements for Vendors/Suppliers

Mass General Brigham requires vendors (“Business”) to perform certain background checks, identified below, for employees (“Business Employees”) who will meet **any** of the following criteria:

- ✓ Have access to Protected Health Information (PHI) of patients
- ✓ Work on site at a Mass General Brigham location for more than three weeks (individuals on-site for less time are required to be accompanied by a Mass General Brigham employee at all times)
- ✓ Will be serving in a temporary staffing capacity

Business shall complete such Background Checks **before** a Business Employee has access to PHI or comes to Customer site. Business shall notify their employees that these background checks will be performed by Business and Business must maintain documentation that background checks were successfully completed. Customer has the right, with reasonable notice, to audit the Business for compliance with these requirements including, but not limited to, requesting documentation of the organization’s background check processes and requesting specific attestation about the compliance related to Business Employees working on behalf of Customer. Customer will not request to see actual background check results, except as described below.

Business Employees whose Criminal Background Screen, National Sex Offender Check, Exclusion Check (if applicable), or MA CORI (if applicable) return a result other than “no record” are not permitted to work on behalf of Customer in a role that requires PHI or onsite access without prior approval, in writing, from Customer’s Police & Security or Compliance Departments. Customer must be notified **via secure/encrypted email**, consistent with Customer’s instructions as provided in the attached Background Check Requirements and await a written response. Alternatively, Business may choose not to assign an individual to Customer and then need not provide Customer any information. In addition, for any temporary staffing agency who is unable to verify VI. and VII., on the attached Background Check Requirements, the employee may not be placed at any Mass General Brigham location.

If, at any time, Customer determines, in good faith, that: (a) based on the result(s) of any of the components of a Background Check or (b) any other relevant information that comes to the attention of Customer, it would be inappropriate for a Business Employee to perform any of the Services hereunder, Customer may require Business to terminate immediately such Business Employee’s assignment for Customer and replace such Business Employee with a Business Employee acceptable to Customer. If Business is unable or unwilling to remove and replace such Business Employee, Customer may (i) immediately terminate the specific Statement of Work (“SOW”) under which such Business Employee has been engaged; or (ii) immediately terminate the underlying Agreement. If at any time Business determines for any reason that such Business Employee should not provide Services to Customer, Business shall immediately notify Customer, terminate such Business Employee’s assignment for Customer, and replace such Business Employee with another Business Employee acceptable to Customer. In any event, Customer will not be responsible for expenses incurred by Business in connection with any such termination or replacement described in this paragraph.

Customer’s affiliates, as applicable, may have additional requirements related to their specific location/business policies. Business shall request that the applicable Customer affiliate inform Business of any such additional requirements prior to beginning work.

Any/all communications containing personal information must be sent via Secure/ Encrypted email.
